RESULTS

Robby's presentations are raw, authentic and initiate **real positive change**.

Robby's high-level presentations are the ideal addition to any memorable conference agenda. He delivers a relevant and **hard-hitting message** for everyone in the room in an incredibly **entertaining** and **powerful** way.

Past event themes Robby has added value to include:

- Back Stronger
- Go Beyond
- Energise
- Our Vision 2020
- Ignite & Inspire
- Super Heroes

LET'S CONNECT

SPEAKER

Having presented to nearly 60 000 people on four continents, Robby Kojetin has established himself as one of the most inspiring and entertaining speakers on global stages today.

HIS STORY

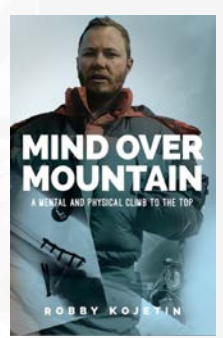

After severely breaking both ankles in a freak climbing accident, Robby was wheelchair-bound for almost a year, robbing him of everything personally, financially and as an aspiring mountaineer.

His jaw-dropping story is a journey from rock bottom to the summit of the highest mountain on Earth, Mount Everest, despite the odds being stacked impossibly high against him.

Robby has the ability to hold his audiences in the palm of his hand with his authentic and personal delivery, cleverly laced from beginning to end with lightning-quick humour.

THE BOOK

MIND OVER MOUNTAIN

A story about falling down and getting up. This story is more than just a biography or another mountaineering expedition story.

This is a journey into hell and back, time and again, in an awe-inspiring effort to chase the ultimate dream and rebuild a life worth living for.

Since its release in 2017, Robby's writing debut has sold over 3000 copies in 15 countries.
